PROTECTIVE BOARD

Protective Board has been developed to protect and preserve all hard floor and short twill covered floor surfaces from dust, dirt, spills, sprays and site grime. This FSC certified board is made from recycled compressed fibre board and this innovative protection system is also 100% recyclable and reusable. The protective board is also breathable and can be laid on wooden floors and new concrete and will not trap any moisture therefore allowing the substrate to dry whilst protecting it from damage.

SPILL SHIELD

Water based paints, silicone sealants, adhesives, pu foam, mud, dust, grime & more.

BREATHABLE

Breathable technology to allow newly laid floors to cure.

DURABLE

Gives a degree of impact and liquid resistance whilst ensuring a clean and scratch free surface below.

QUICK INSTALLATION

Simply roll out, cut and tape.

REUSABLE

Can be reused many times. Simply sweep, roll up and use again.

NO RESIDUE

Sits securely in place once taped, leaving a clean residue free surface when lifted.

Protective Films & Dust Sheets

Protective Film

Highly effective self-adhesive protective film. Carpet and hard surface films protect against foot traffic, debris, spills etc. during decoration and building works. Glass film protects both internal and external windows from plaster and paint splashes etc.

Film can be left up to 30 days before simple removal.

Note: Please ensure you have read and fully understood the usage guidelines before installation.

- Safer than dust sheets
- Protects against spills
- 0.05mm Thickness
- One man application
- Easy peel
- Leaves no residue

Dust Sheets

Professional
High quality dust sheet for multiple uses including floor and furniture covering during decoration.

Laminated
High quality dust sheet with a lamination to greatly reduce risk of paint and liquid soaking through. Available in handy size ideal for smaller jobs.

Economy
Multi-pack of dust sheets for multiple uses including floor and furniture covering during decoration.

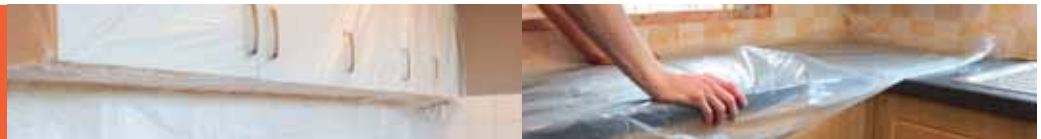

Stair Runner
High quality and cut to a convenient width to suit standard staircases avoiding need to fold which reduces risk of trips and falls.

Helps to protect from dust, dirt, paint splashes and spatter.

First Aid

BS Workplace First Aid Kit

BS8599-1 is the first new standard for statutory First Aid Kits in the workplace since 1997.

These kits reflect the changes in both workplace practice and risks, making them demonstrably more 'fit for purpose' in today's environment, when compared to the old HSE kits.

Durable and stylish polypropylene case. Wall mountable with integrated bracket.

| LOW RISK (eg. shops, offices) | | HIGH RISK (eg. construction sites, workshops) | |
|----------------------------------|----------------------|--|---------------------|
| SMALL | Less than 25 people | SMALL | Less than 5 people |
| MEDIUM | 25 - 100 people | MEDIUM | 2 - 25 people |
| LARGE | 1 kit per 100 people | LARGE | 1 kit per 25 people |

Ear Protection

The ear protector chosen should provide enough attenuation to protect your hearing but consideration should also be given to its compatibility with other items of PPE being worn such as safety glasses.

Attenuation is the process of losing noise energy and it is the attenuation data that should be examined when selecting appropriate ear defenders.

The Single Number Rating or SNR value can be used to compare the level of noise attenuation offered by different hearing protectors.

The higher the SNR, the higher the level of noise attenuation or protection is provided by the hearing protection.

To determine acoustic pressure on your ears, subtract the SNR value from the average noise level that has been measured during the risk assessment. For example:

TIMCO's foldable ear defenders (770390) have a SNR of 30.4 dB.

Warning: Reducing sound to a lower level than normal talking may be a safety risk.

Ear Defenders

Foldable Ear Defenders

SNR 30.4 dB Noise level reduction

CE Approved to EN 352-1:2002

Ideal for long comfortable use in medium sound environments.

| Product Code | Size | Pack Qty (pairs) | Carton Qty (packs) |

Eye Protection

Safety eyewear is an important form of PPE that protects one of the most important yet exposed parts of the body. Understandably, the European Standards covering eye protection are some of the most comprehensive of all those dealing with any item of PPE.

It's important that the user considers the environment and level of risks involved before selecting the correct eyewear item.

To assist with the selection, all PPE is required to be marked with the specification of its standard, with lettering/numbering acting as an indication of capability.

In accordance with TIMCO's quality standards we only supply glasses with the highest class 1 optical quality lenses. Meaning that there is no optical distortion and they are suitable for long periods of wear.

Example of code on lens

CE 2C - 1.2 1 F

| Radiation Protection EN 170 / EN 172 | Light Transmission | Optical Quality (Class) | Mechanical Strength EN 166 |
|---|--------------------------|---|--|
| 2 UV Protection (EN170). The number 2 indicates the filter may effect colour recognition. | 1.2 74.4% – 100% | 1 High quality for regular use. | B Medium energy impact. Resists a 6mm/0.86g ball travelling at 120m/s. |
| 2C or 3 UV Protection (EN170). The number 2C (previously 3) indicates the filter allows good colour recognition. | 1.7 43.2% – 58.1% | 2 Medium quality for occasional use. | F Low energy impact. Resists a 6mm/0.86g ball travelling at 45 m/s. |
| 5 Solar Protection (EN172). i.e. 100% UV sun glare protection with no infrared (IR) protection. | 2.5 17.8% – 29.1% | 3 Low quality for rare use. | K Resistance to surface damage by fine particles. Often referred to as Anti-scratch. |
| 6 Solar Protection (EN172). i.e. 100% UV sun glare protection with infrared (IR) protection. | 3.1 8.0% – 17.8% | | N Resistance to lens fogging. Often referred to as Anti-fog or Anti-mist. |
| | | | T Resistance to high speed particles at extremes of temperature, -5°C to +55°C (can be seen in conjunction with F,B and A). |

EN 170 : Ultraviolet (UV) filters
EN 172 : Solar radiation filters

Premium & Sports Style Safety Glasses

Sports Style Safety Glasses with Foam Dust Guard - Full Frame

Detachable foam gasket for reduced dust ingress

Anti-scratch lens coating

Moulded silicone comfort lining to temple & nose pad

Includes microfibre storage pouch

A designer pair of safety glasses built for strength, comfort and flexibility. The unique detachable foam gasket around the frame reduces the risk of dust, dirt and liquid ingress whilst providing additional comfort to the user. The soft rubber lining on the arms and around the nose give extra comfort and grip around the ears, temple and nose when worn for long periods. The clear lenses provide excellent visibility and are treated with an advanced micro coating to prevent scratches.

Safety Masks

Our range of dust masks provide clean and safe air when working in potentially hazardous conditions.

Designed using the very latest technology in filtration material, the masks prevent harmful particles passing through.

Often an essential requirement of certain workplaces, all TIMCO masks are fitted with easy-breath exhalation valves and there are various filter protection levels in the range.

FFP3 - Highest Level
FFP2 - Moderate Level

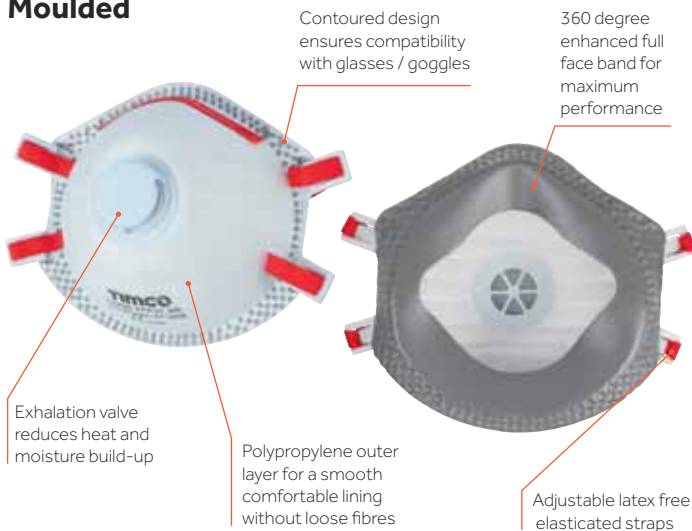

FFP3 Masks With Valves

Assigned Protection Factor (APF): 20
Equivalent to 99% Filter efficiency.

CE Approved to EN149

Protects against medium to high levels of dust from home repair, woodworking, construction or water based mist.

Moulded

A medium to high protection moulded mask with a 360° full face soft band for optimum comfort, fit and breathing.

| Product Code | Size | Pack Qty (pcs) | Carton Qty (packs) |

Gloves

A comprehensive range of work gloves designed for the toughest and harshest year-round domestic, work site and commercial environments.

Constructed from a variety of innovative materials, the TIMCO safety glove range has been designed to cover multiple environments and applications where there is risk of serious injury such as cuts, abrasion and splinters. Used to provide general comfort and cushioning when regularly handling rough or heavy materials, gloves will enhance grip on hand held equipment to ensure a safe, smooth control and operation of machinery and tools.

Coloured size guide:

All TIMCO's gloves are CE approved

CE CAT II - Intermediate Risk
EN388 EN ISO 21420

Hi-Vis Clothing

The movement of machinery and vehicles in the workplace presents major risks to staff and visitors. There are more than 5,000 incidents involving transport in the workplace each year. Staying visible with the use of high visibility clothing is essential when working on construction sites and in warehouses and significantly reduces this risk.

EN ISO 20471 categorises all Hi-Vis clothing into three classes. The selection of Hi-Vis should be based on a risk assessment of the conditions and risks for a particular worker.

Certification of items into classes is based on the combined surface area of reflective materials for each item:

| | Class1 | Class 2 | Class3 |
|----------------------|----------|----------|----------|
| Reflective Tape | 0.10 sqm | 0.13 sqm | 0.20 sqm |
| Fluorescent Material | 0.14 sqm | 0.50 sqm | 0.80 sqm |

Hi-Vis Class 1 – The lowest level of visibility. An example would be Hi-Vis trousers when worn separately from other High-Vis items.

Hi-Vis Class 2 – The intermediate level of visibility. An example would be a Hi-Vis sleeveless vest.

Hi-Vis Class 3 – The highest level of visibility. An example would be a Hi-Vis Jacket.

Class 3 can be achieved in two ways. Simply select an item to Class 3 such as a Parka jacket or combine items with total reflective material equal to or greater than a single Class 3 item.

Executive Vests

High visibility executive waistcoat with highly reflective panels to body and shoulders for visibility, particularly during the hours of darkness. Secure zip fastening with multiple utility pockets for ID card, mobile phone, pens and two bellowed front pockets plus a radio loop D ring.

- Zipper fastening
- 100% knitted polyester
- 50mm reflective tape on body and shoulders
- Conforms to EN ISO 20471:2013+A1:2016
